(339) 241-7755 | joshuaguirao24@gmail.com | Portfolio | Boston, MA

EDUCATION

Tufts University **Medford, MA**

BSE in Computer Science, BS in Mathematics, Minor in AI Development *Sep 2024 - May 2028*

- **Relevant Coursework:** Data Structures, Algorithms, Software Engineering, Machine Structure & Assembly-language Programming, Discrete Mathematics, Artificial Intelligence, Web Programming, Intro to Machine Learning & Data Mining

PROFESSIONAL EXPERIENCE

EY-Parthenon **Singapore**

Strategy and Transactions Intern *May 2026 - Aug 2026*

- Supported product, technology, and commercial due diligence engagements for PE-backed software M&A transactions, synthesizing client materials and external research into structured analytical frameworks for senior team review.
- Analyzed publicly available financial statements and conducted competitive product benchmarking across companies to assess growth signals and market positioning, producing research used by active M&A deal teams.

LeadUp Universe **Singapore (Remote)**

Data Science Intern *Jun 2025 - Aug 2025*

- Built a data pipeline to clean and standardize 40,000+ lead records across 50+ inconsistent field formats using Python (pandas, NumPy, rapidfuzz) to enable geographic segmentation across 6 regional markets.

CAMPUS & LEADERSHIP EXPERIENCE

Tufts University **Medford, MA**

General Chemistry II Laboratory Teaching Assistant *Sep 2026 - Present*

- Oversee student safety, guide lab procedures and theory questions during sessions, and grade lab data submissions.

Ascend Tufts **Medford, MA**

Chair Of Professional Development *Nov 2025 - Present*

- Spearheading professional development through skills workshops and resume reviews to drive career readiness.
- Coordinate industry outreach to source speakers and networking events, expanding member access to opportunities.

FitMoney **Medford, MA**

Executive Director of Operations *Sep 2025 - Present*

- Directing operations of a 30+ member organization, coordinating cross-team logistics and curriculum delivery for an 8-module financial literacy program reaching 200+ low-income and first-generation high school students.

JumboCode **Medford, MA**

Software Developer *Sep 2025 - May 2026*

- Developed dashboard UI components, including performance visualizations, and integrated Instagram and Facebook APIs to pull and backfill historical social metrics, building and iterating on features across weekly Agile sprints on a team-built full-stack analytics platform (React, Node.js, Express, PostgreSQL).
- Contributed to a dedicated reliability and testing sprint across four social media API integrations, validating backfilling accuracy and daily sync stability, auditing token refresh procedures, configuring cron jobs for automated syncing, and testing integrations end-to-end, with findings documented in the team wiki.

PROJECTS

HackHarvard 2025 **Cambridge, MA**

FitWise *Oct 2025*

- Built an AI-powered fitness trainer to reduce reliance on costly personal trainers, delivering real-time form correction and rep counting through a custom pose-analysis engine using Google's MediaPipe pose detection.
- Architected a dual-process Python backend using multiprocessing, separating real-time pose inference from a Flask-SocketIO server relaying live results to a Next.js frontend via shared memory.
- Integrated the Gemini API to generate mid-workout coaching feedback from pose landmark data, paired with a voice interaction pipeline using ElevenLabs speech-to-text and text-to-speech with ffmpeg audio conversion.

SKILL & INTERESTS

Programming Languages: Python, C++, JavaScript, SQL, HTML/CSS
Frameworks & Tools: React, Node.js, Express, Flask, PostgreSQL, Next.js, Git, Gemini API, MediaPipe
Languages: English (Native), Mandarin (Conversational)
Interests: Toronto Raptors, UFC, Weightlifting, Piano, Chess, Cooking (Asian), Comedy Movies, DC, Breaking Bad
